Enhance Your Skills & Abilities

The Midwestern University Occupational Therapy team provides exceptional care for clients across the lifespan to enhance their ability to perform daily functions. Working as a team, Midwestern students collaborate with licensed and certified therapists who are our faculty, providing the latest in treatments and technology to empower clients to reach their functional goals.

We offer comprehensive, affordable services for a wide range of injuries, conditions, and occupational and developmental disorders for both children and adults, including:

Pediatrics

- Sensory Processing Disorders
- Torticollis/Plagiocephaly
- Neuromuscular Conditions
- Feeding/Eating Disorders
- Developmental Delay
- Autism Spectrum Disorder
- Cerebral Palsy
- Down Syndrome

Adults

- Stroke
- Acquired/Traumatic Brain Injury
- Spinal Cord Injury/Stenosis
- Progressive Neurodegenerative Conditions
- Ataxia
- Parkinson's Disease
- Multiple Sclerosis
- Neuropathies
