## Enhance Your Child's Skills and Abilities

The Midwestern University Occupational Therapy team provides exceptional care for children to enhance their ability to perform daily functions. Working as a team, Midwestern students collaborate with our faculty licensed and certified therapists, providing the latest in treatments and technology to empower clients to reach their functional goals.

We offer comprehensive, affordable services for a wide range of occupational and developmental disorders, including:

- Developmental Delay
- Neuromuscular Conditions
- Autism Spectrum Disorder
- Amputation/Limb Deficiency
- Feeding/Eating Disorders
- Hand Function Disorders
- Sensory Processing Disorders
- Brachial Plexus Injury
- Torticollis/Plagiocephaly
- Traumatic Brain Injury
- Cerebral Palsy
- Down Syndrome Conditions
